

Achia Nila

Achia Nila

Designation:

Founder, Chief Technology Officer at LuminaDev

Education:

Bachelor of Science ([B.Sc.](#)) in Computer Science & Engineering from United International University

Masters of Science ([M.Sc.](#)) in Computer Science & Engineering from Daffodil International University

Achia Nila is the **Founder** and **Chief Technology Officer** of **LuminaDev**. She is also the Founder and former CEO of **Women in Digital**, where she has worked to encourage **women's participation** in technology through **training, mentorship, and innovation initiatives**. With over **15 years of experience** in technology and digital transformation, she brings extensive expertise in emerging technologies, product development, and technical leadership.

Mentorship Areas:

- Cybersecurity
- Women in Technology and Digital Innovation

Afra Kabir

Afra Kabir

Designation:

Senior Staff Engineer | Software Engineering - Digital | IT at Grameenphone Ltd

Education:

Bachelor of Science ([B.Sc.](#)) in Electrical and Electronics Engineering at North South University

Masters of Science ([M.Sc](#)) in Electrical Engineering at University of Bridgeport

Afra Kabir is a **Senior Staff Engineer** at **Grameenphone** and an **alumna** of **North South University**. She previously served as a **Senior Engineer** at **bKash Limited** and an **ICRM Specialist** at **Robi**. She has also been involved in career-development initiatives supporting **women in STEM**. Her professional experience spans software product management, cloud solutions, telecommunications, and digital technology, with a strong background in connectivity, digital innovation, and customer-facing technology.

Mentorship Areas:

- Career Planning & Goal Setting
- Communication & Networking Skills
- Career Decision-Making & Confidence Building
- Growth Mindset Development

Tanzeem Haque

Tanzeem Haque

Designation:

Data Infrastructure & Services Lead, ACI AI Business at ACI Limited

Part-time Faculty Lecturer at American International University - Bangladesh (AIUB)

Education:

Bachelors and Masters in Bioinformatics at Ludwig-Maxmillian University of Munich & Technical University of Munich (Joint Degree Program)

Tanzeem Haque works in ACI PLC's AI division, where she leads initiatives across data infrastructure, data science, analytics, and engineering. She also serves as Director at DataEins, working on data systems for the healthcare sector. She has mentored students at the Technical University of Munich since 2023 and previously worked as a Data Engineer at Smartify IT Solutions GmbH and Significo Health in Germany. Her experience spans data engineering, data science, analytics, and technology-driven healthcare solutions.

Mentorship Areas:

- Data Engineering
- Data Science
- Data Analytics

Zarrin Tasnim

Zarrin Tasnim

Designation:

Road Safety Manager PTAB (Pakistan, Turkey, Arabia, Bangladesh) at Unilever

Education:

Bachelor of Science in Electrical and Electronics Engineering at Islamic University of Technology

Zarrin Tasnim is the **Road Safety Manager** for Pakistan, Turkey, Arabia, and Bangladesh (**PTAB**) at **Unilever**, where she works across safety strategy and sustainable mobility. Prior to joining Unilever, she served in several roles at **BAT**, including Commercial Sustainability Manager and Production Unit Manager. She also previously worked as a Service Assurance Management Intern at **Banglalink**. She has over five years of professional experience spanning supply chain, manufacturing, sustainability, market operations, and leadership.

Mentorship Areas:

- Corporate Career Development
- Leadership
- Supply Chain

Tahmina Akter

Tahmina Akhter

Designation:

Data Scientist and System Development Engineer at Intel Corporation

Education:

Bachelor of Applied Science in Applied Chemistry and Chemical Engineering at University of Dhaka

Masters of Science in Applied Chemistry and Chemical Engineering at University of Dhaka

Philosophy of Doctor in Chemistry at the University of Texas at El Paso

Tahmina Akhter is a **Data Scientist** and **System Development Engineer** at **Intel Corporation**. She earned her PhD from the **University of Texas at El Paso** and received the **Frank B. Cotton Trust Graduate Fellowship**. She also brings a strong academic and research background in engineering and advanced materials. Her professional experience spans semiconductor engineering, process development, manufacturing analytics, quality improvement, and data-driven system development.

Mentorship Areas:

- Higher Study
- Research in Semiconductor

Fariah Mahzabeen

Dr. Fariah Mahzabeen, Ph.D.

Designation:

Associate Professor of Electrical and Computer Engineering Department at North South University

Education:

Doctor of Philosophy (PhD) in Electrical Engineering at Stanford University

Dr. Fariah Mahzabeen is an **Associate Professor** of Electrical and Computer Engineering at **North South University** and a **Ph.D. graduate** in Electrical Engineering from **Stanford University**. She previously served as an **Assistant Professor** at **San Jose State University** and a **Technical Program Manager** at **Google Cloud**. She has also worked with Verily Life Sciences, Facebook, and Stanford University, gaining expertise in engineering, research, and technology innovation. As a Co-Founder and COO of Tackle, she also brings valuable entrepreneurial and leadership experience.

Mentorship Areas:

- Digital Health/Interdisciplinary research
- Graduate studies in top schools
- Aiming to work MAANG companies
- Entrepreneurial stint
- Mental health support during education

Tasmia Tabassum Rahman

Tasmia Tabassum Rahman

Designation:

Assistant Engineering Program Manager at Ulkasemi

Education:

Bachelor of Science in Electronics and Telecommunication Engineering at Rajshahi University of Engineering & Technology

Tasmia Tabassum Rahman is an **Assistant Engineering Program Manager** at **ULKASEMI Pvt. Limited**. Beyond her technical work, she has been involved in community and leadership initiatives through the **Hult Prize Foundation** and **Anirban Bangladesh**. Her professional experience spans engineering program management, communication systems, embedded technologies, and technical leadership.

Mentorship Areas:

- Biomedical Antenna Research
- Semiconductor Industry (Analog Layout & Physical Design)
- Research Methodology & Project Planning
- Engineering Project Management
- Antenna Design & RF/Microwave Engineering

Fardifa Fathmiul

Fardifa Fathmiul Alam

Designation:

ISE Summer Research Fellowship GRA at George Mason University

Education:

Bachelors of Science (B.Sc.) in Computer Science and Engineering at Islamic University of Technology

Masters of Science (M.Sc.) in Computer Science at Clemson University

Doctor of Philosophy (PhD) in Electrical and Computer Engineering at George Mason University

Fardifa Fathmiul Alam is a PhD researcher in Electrical and Computer Engineering at George Mason University, where she works in robotics and robot learning. Prior to joining George Mason University, she completed her M.S. at Clemson University, where she conducted research on autonomous robot localization. Her academic experience includes robotics, machine learning, and autonomous systems.

Mentorship Areas:

- Research
- Graduate Applications
- M.S. Studies in Robotics

Mayeesha F. Ahmad

Mayeesha F. Ahmad

Education:

- East Delta University
Bachelor's degree, Electrical and Electronics Engineering
2014-2018 , Grade: 4.0
- Activities and societies: Debating Society
- Chittagong Cantonment Public College
-Higher Secondary, Science
- Bangladesh Mohila Samity Girls' High School & College
-Secondary, Science

Designation:

Team Lead at Neural Semiconductor Limited

Mayeesha F. Ahmad is a Team Lead at Neural Semiconductor Limited with over 5 years of experience in Analog and Mixed-Signal (AMS) Layout Engineering. She specializes in advanced-node technologies ranging from 180nm to 5nm and has experience working with leading foundries including GlobalFoundries, TSMC, and UMC. Her expertise includes AMS layout, BCD, GaN, High Voltage, FDSOI, FinFET, and Planar technologies, using industry-standard tools such as Cadence Virtuoso and Synopsys Custom Compiler. As a Team Lead, she drives engineering excellence and collaboration within her AMS Design team. Passionate about STEM and innovation, she is committed to continuous growth and contributing to the advancement of Bangladesh's semiconductor industry.

Mentorship Areas:

- Analog and Mixed-Signal (AMS) Layout Engineering
- VLSI and Semiconductor Design
- Advanced-Node Technologies
- STEM and Semiconductor Industry

Kimia Tuz Zaman, Ph.D

Kimia Tuz Zaman, Ph.D., Assistant Professor at Tuskegee University

Education:

- Doctor of Philosophy - PhD, Computer from NDSU (North Dakota State University)-Science Grade: 3.8
- Bachelor of Science (B.Sc.) in Computer Science & Engineering from North South University

Designation:

Dr. Kimia Tuz Zaman is an Assistant Professor in the Department of Computer Science at Tuskegee University. Her research lies at the intersection of Artificial Intelligence, Human-Computer Interaction (HCI), healthcare, privacy, and inclusive technology design.

Her work focuses on developing intelligent, responsible, and culturally sensitive technologies that address the needs of diverse and underserved communities. As an educator and researcher, she is passionate about empowering students and using computing to create meaningful real-world impact.

Mentorship area:

Oishi Maniha

Oishi Maniha, Technical Manager at Ulkasemi Limited

Education:

Bachelor of Applied Science - BASC, Electrical and Electronics Engineering from North South University

Grade: CGPA 3.58

Designation:

Oishi Maniha is a Technical Manager at Ulkasemi Limited with over 8.5 years of experience in Analog and Mixed-Signal Layout Engineering and VLSI physical design. She specializes in gate-level netlist-to-GDSII design flow, advanced-node physical layout, IP integration, and full-chip implementation, with hands-on experience across TSMC, GlobalFoundries, and Samsung technologies ranging from 180nm to 3nm.

Alongside her technical expertise, she also works closely with international clients and cross-functional teams, providing technical guidance, resolving complex design challenges, and ensuring successful project execution.

Mentorship area:

Program Outcome

Dr. Fariah Mahzabeen

Track	Key Outcomes
1. Interdisciplinary Research & Digital Health	Translate engineering skills into health/biotech/policy impact; operate across disciplines; hands-on research experience (lit review, experimental design, data analysis, scientific communication); build a lasting interdisciplinary mentor connection
2. Top-Tier Graduate Programs	Build a competitive research profile (publications, projects, recommendations, leadership); strategically shortlist and apply to MS/PhD programs; prepare CV, SOP, personal statement; learn to approach potential advisors
3. MAANG/Top-Tier Tech Careers	Build industry-relevant skills (software, AI/ML, data, systems); develop technical portfolio (projects, internships, GitHub); prepare for technical/behavioral/system-design interviews; build professional networks

Fardifa Fathmiul

Focus Area	Outcome
Research Direction	Identify emerging areas in robotics, ML, neuromorphic computing aligned with interests
Technical Development	Build technical/research skills for those fields
Graduate Study Planning	Strategic M.S./PhD planning (esp. U.S.), university/advisor selection
Application Preparation	Strong CV, SOP, application strategy
Career Planning	Clear career/research roadmap

Zarin Tasnim

Focus Area	Outcome
Career Readiness	Professional CV ready for job applications
Internship Placement	Secure 1–2 internships (final-year students)
Communication	Better presentation, storytelling, communication skills
Confidence	Self-confidence building
Long-Term Planning	Map next 5–10 years (academic or corporate path)

Afra Kabir

Focus Area	Outcome
Career Clarity	Clear career goals and roadmap
Communication & Networking	Improved skills
Confidence	Confidence in career decision-making
Mindset & Habits	Growth mindset, better goal-setting

Tanzeem Haque

Focus Area	Outcome
Mindset Shift	Move from a "job-seeker" mindset to a "builder" mindset — from "can I get this job" to "can I build the thing that creates jobs"
AI-Era Adaptability	Understand why adapting to AI-driven change is essential to stay competitive, not optional
Learning Agility	Learn to learn fast and iterate quickly rather than seek a "finished" plan before starting
Self-Direction	Build the confidence to start without waiting for permission or external validation

Tasmia Tabassum Rahman

Month	Focus Area	Key Activities
1	Introduction & Goal Setting	Understand interests, strengths, skill gaps; set career/research goals
2	Research Topic Exploration	Antenna design, RF/microwave, biomedical antenna research; topic selection, lit review
3	Research & Project Planning	Structured plan: objectives, methodology, tools, timeline
4	Engineering Project Management	Milestone tracking, prioritization, risk management, documentation, teamwork
5	Semiconductor Industry Exposure	Semiconductor career paths (analog layout, physical design), entry skills
6	Professional Development & Future Roadmap	Review progress; build career/skill-development roadmap
